HOW TO DESIGN YOUR OWN CUSTOM ECO-FRIENDLY BAGS

Promote with a reusable customized tote! Our eco-friendly jute and canvas bags are a great way to incorporate eco-friendly into your packaging program - either as promotional, gift with purchase or resale. Ask about our custom made to order program available with minimums starting at just 300 bags. Building your bag is easy - simply choose your bag style and size, color option and handle style and we'll take care of the rest. Step 3: Select your handle style, color and length - choose from 8 handle styles available in your choice of colors. Choose from rope handles, cotton string, cane handles or flat web handles. Additional finishing options like zippers, grommets or snaps are also available.

Additional colors and configurations available on all canvas and jute bags - call for more information. 300 bag order minimum for custom canvas and jute bags. Please allow 10-12 weeks for delivery.

WHAT IS JUTE? HOW RECYCLABLE IS IT?

Jute is a natural fiber derived from the jute plant, primarily grown in tropical regions. It's used for textiles, twine, rope, and eco-friendly packaging. Jute is highly sustainable, biodegradable, and has minimal environmental impact during cultivation. It is recyclable, with used jute products broken down into fibers for manufacturing new items. While jute is biodegradable, recycling extends its life cycle and reduces the demand for new raw materials.
